

History Research Group Assignments Report

Assign the different members of your group the different tasks necessary to complete your project. While this list is subject to change, all members need to work together to create the list so the work is shared evenly. Each member needs to have their own copy of this assignment list. As each item is completed, each student is to put what each student completed in the individual columns. These will need to be turned in with your project as part of your grade. Each student needs to complete this form periodically and individually. If any student feels they have done more than the rest, it will be shown on this form.
